MAT 1103  Business Mathematics
MUS 2103  Music Appreciation
MAT 1403  College Math

AS
Associate of Science-ONLINE
Mid-Continents accelerated Associate of Science Degree Program is designed to help adults with little or no credit hours earn a degree. The ONLINE Associate Program is designed to include all general education courses required by the state of Kentucky for an associates degree. Throughout the associate program, students will work with faculty members who have practical experience in their areas of instruction. This virtual environment provides ample opportunities for students to learn from their peers as well as their professors. Adults can complete their associate degree by attending classes online. The program consists of approximately 24 months of instruction, equaling 60 semester hours. Students are classified as fulltime. Individuals can transfer credit hours from a regionally accredited university.

The Associate of Science consists of 60 credits, 42 general education classes and 18 elective credits. For transfer students, some substitutions may be considered for general education core requirements. For the 18 elective credits students may select a variety of courses, use transfer credits, or select an emphasis area. Choices of emphasis include Psychology and Counseling, Business Administration, Christian Studies, Human Resources, or Social Science.

Our Goal is Your Success
Mid-Continents University Advantage is structured to assist adults in obtaining their career goals in a user-friendly environment. Mid-Continents University is accredited by the Southern Association of Colleges and Schools (SACS).
